Subject: FW: upcoming AT&T upgrades-TIGER LAKE OWNER'S ASSOCIATION, INC.- ATT JOB#A0294GC

Importance: High

Hello Cheryl,

Please confirm receipt.

I am following up to see if the board or residents have any questions about the upcoming AT&T upgrades in TIGER LAKE OWNER'S ASSOCIATION, INC? The job requires digging in the easements to bury fiber and boring under driveways so we want to make sure the community is informed and answer any questions up front if possible. AT&T guarantees all restoration.

Please let me know if there are any questions, and please confirm receipt of this email. This job is scheduled to start in 2-4 months, possibly sooner. Is there a gate code? Standard Hours of operation are 8-6 M-F, 9-4 Saturdays and no work on Sundays.

EarthLink Mail

AT&T has a project planned to upgrade their existing facilities in TIGER LAKE OWNER'S ASSOCIATION, INC.. The work will be to convert their existing outdated facilities with new state of the art communications facilities allowing for higher internet speeds and more features for residents. No existing service will be disturbed. The project will requires digging and boring so it is important that the community and board be informed of the upgrade as a courtesy. All restoration is guaranteed by AT&T. Attached is a letter to the community with a list of frequently asked questions I believe may be helpful to explain what AT&T will be doing along with a power point showing what it looks like when they are doing the upgrade in pictures and methods of placement. Door hangers will be placed on residents doors prior to construction. The door hanger will have the name and contact information for the construction company should any restoration be required.

The job isn't scheduled for start for approximately 2-3 months, possibly sooner. AT&T will be ordering locates and placing door hangers prior to construction. Please contact me with any questions you may have. I will be happy to assist with any concerns you have during the project.

Thank you,

Jennifer Lewer
